FRONT LABEL - CUT ON THE DASHED LINE

Print at Actual Size on US Letter paper. Keep the page in landscape orientation.

Attach one extension strip to each STAPLE zone.

Wrap the strips around the wearer's head, overlap the ends, and staple to fit.

HEADBAND EXTENSIONS - CUT OUT BOTH STRIPS

The dotted end zones show where the pieces may overlap and be stapled.

For a smaller head, overlap more of the strips before stapling. Add tape over staple backs if desired.
